LA LUCE NEL DNA

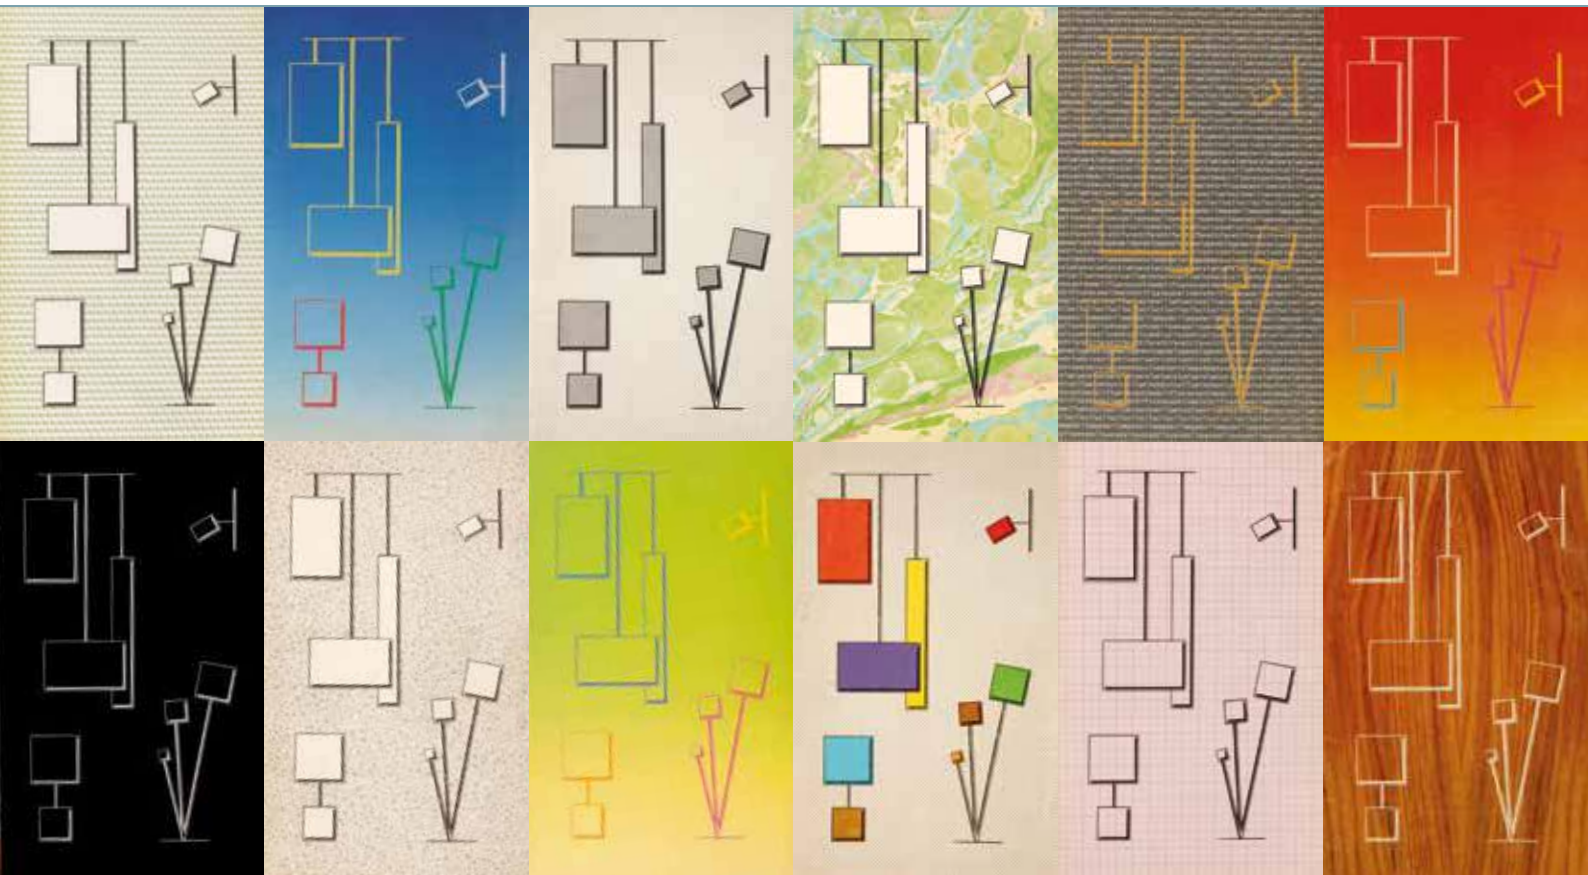

1929
90
2019 ANNI

Il catalogo edizione 90 vuole essere un omaggio ai cataloghi storici che ci hanno accompagnato, dal 1961 ad oggi. **In particolare la copertina**, con le applicazioni delle lampade disegnate a mano, che raccontano, sin dalla nostra prima edizione cartacea, l'ampia offerta delle nostre lampade. Prodotti adatti ad ogni applicazione (sospensione, soffitto, parete, terra e tavolo).

E a voi, qual è la copertina che piace di più, in mezzo a tanti diversi colori? Raccontatecelo con una mail a marketing2@rossinigroup.it

The 90 edition of the catalogue is a tribute to the historical catalogues that followed us, from 1961 until today. **In particular the cover**, with the applications of hand-drawn lamps, which tell, since our first printed edition, the wide offer of our lamps. Products suitable for every application (suspension, ceiling, wall, floor and table).

And what about you? What is the cover you like most? Tell us at marketing2@rossinigroup.it

LA LUCE NEL DNA
LIGHT IN THE DNA

1929

4 Ottobre 1929: Otello Rossini si trasferisce dal Veneto nel capoluogo lombardo, dando origine a un piccolo commercio di oggetti in vetro. Nel giro di pochi anni la bottega diventa un piccolo negozio in via Melzo: fanno capolino i primi lampadari artistici di Murano.

October 4th, 1929: Otello Rossini moves from Veneto to Milano, starting a small trade of glass objects. Within a few years the tiny atelier becomes a small shop in via Melzo selling artistic chandeliers in Murano glass.

1942

Durante la seconda guerra mondiale uno spezzone incendiario distrugge completamente il magazzino e l'attività è costretta ad interrompersi per qualche anno.

During the Second World War an incendiary fragmentation bomb destroys completely the warehouse and the activity is forced to stop for a few years.

1946

Superata la guerra e le difficoltà che ne seguono, Milano e il paese si risollevano e gli affari per Otello Rossini incominciano a prosperare. Si costituisce la "Ditta Rossini Otello".

After the war and the following difficulties, Milano and the country lifts up and for Otello Rossini the business begins to grow. "Rossini Otello Company" is established.

1951

Il giovane Eugenio Rossini succede al padre, inaugurando così la seconda generazione alla guida dell'azienda.

The young Eugenio Rossini happens to the father: it is the second generation in control of the company.

1950
1960

L'azienda cresce, ha bisogno di una nuova collocazione. Come lo stesso Eugenio afferma "lo spazio è sempre stato un'esigenza primaria nello sviluppo della nostra attività. Ogni volta la nuova superficie sembrava enorme ed ogni volta veniva rapidamente saturata." La sede si sposta in uno spazio di 350 mq con una piccola esposizione.

The company grows. "Space has always been a primary requirement in the development of our activity. Each time the new surface looked huge and each time it was quickly saturated" as Eugenio says. The firm moves to a space of 350 m^2 with a first small exhibition.

1961

Esce il primo catalogo: è composto di sole due facciate e qualche decina di prodotti. Per la prima volta vengono introdotti nuovi modelli di lampadari che uniscono l'eleganza del vetro artistico di Murano e la solidità della struttura costruita dagli artigiani milanesi.

The first catalogue comes out: it consists of only two pages and a few dozen products. New models of chandeliers are introduced, combining the elegant Murano artistic glass and the solid structure built by the Milanese artisans.

1970

1 Gennaio 1970: La ditta "Rossini Otello" diventa "Rossini Illuminazione" e viene inaugurata la nuova sede aziendale in Via Feltre e suddivisa su 5 piani per una superficie di 6000 mq. La signora Paola, madre di Eugenio, è ancora attivamente presente in azienda.

January 1st, 1970: The company "Rossini Otello" becomes "Rossini Illuminazione". A new headquarter in via Feltre opens: 5 floors and 6000 m^2 area. Eugenio's mother, Paola, is still present at work.

1979

Rossini Illuminazione festeggia 50 anni di solida attività.

Rossini Illuminazione celebrates 50 years of solid activity.

1992
1994

Eugenio Rossini lascia la direzione operativa dell'azienda al figlio del cugino Angelo, Ruggero Rossini. I figli di Eugenio sono ancora in giovanissima età e Ruggero ha dalla sua un'esperienza già decennale nel settore dell'illuminazione. Il catalogo passa da una cinquantina di pagine alla prima versione da 200 pagine.

Eugenio Rossini leaves the operational direction of the company to the son of his cousin Angelo, Ruggero Rossini. Eugenio's sons are still young and Ruggero benefits from a ten-year experience in the lighting industry. It is the first edition of the "big catalogue", consisting of more than 200 pages.

1996

La sede dell'azienda passa a Segrate (Milano) in una struttura di 8400 mq completamente informatizzata che permette la gestione in stock di tutte le referenze, arricchita da un'ampia sala esposizione.

The company's headquarters moves in Segrate (Milano) in a fully computerized 8400m² structure that allows the stock management of all references, enriched by a large exhibition room.

2001

OVERLITE ILLUMINAZIONE

Nasce Overlite, lo showroom con i top brand nel settore dell'illuminazione di design. La sede è in via Feltre 32, accanto alla sede storica dell'azienda.

Overlite is born, the showroom with the top brands of design luminaires. It opens in via Feltre 32, next to the company's historic headquarters.

2004

L'azienda si dota per la prima volta di una nuova e strutturata rete commerciale di agenti e di un direttore commerciale. Nello stesso anno, Rossini Illuminazione subisce la perdita di Eugenio Rossini.

The company develops a new and solid commercial network of sales representatives managed by a commercial director. In the same year, Eugenio Rossini passes out.

2009

Rossini Illuminazione compie 80 anni. La moglie di Eugenio, Maria Angela, assume la presidenza della società, affidando la direzione operativa ad un manager esterno. Tre dei quattro figli di Eugenio entrano in azienda, imparando il mestiere dalle basi: la vendita e la gestione del magazzino.

Rossini Illuminazione celebrates 80 years. Eugenio's wife, Maria Angela, is the new president of the company, and she entrusts an external manager with the operational direction. Three of the four sons of Eugenio join the company, learning the business from the basics: the sale and management of the warehouse.

2012

Plexiform® SOLUZIONI IN LUCE

Rossini illuminazione acquisisce Plexiform, un'azienda milanese con una storia e un'esperienza consolidata di quasi 50 anni e già partner affidabile di Rossini. L'intenzione è avere sotto controllo il processo produttivo degli apparecchi.

Rossini Illuminazione acquires Plexiform, a lighting company based in Milano with a history and a consolidated experience of almost 50 years and already partner of Rossini. The aim is to manage the production process of the fittings.

2016

Esce il catalogo Rossini Illuminazione per la prima volta suddiviso in volume DECO e TECH. La scelta è dettata dalla necessità di aggiornamenti sempre costanti, basati sull'evolversi della tecnologia che connota il settore dalla comparsa e sviluppo dei LED.

The Rossini Illuminazione catalogue is published for the first time divided into two editions: DECO and TECH. The choice was driven to offer constant updates, since the introduction and development of LEDs and consequent evolution of technologies.

2016

È l'anno zero: i fratelli Rossini (Dario, Marco, Elisa) assumono a tutti gli effetti la direzione operativa del gruppo, pur continuando ad occuparsi delle rispettive aree di competenza: ufficio acquisti, finanza e controllo, marketing e comunicazione.

It is the Year Zero: the Rossini brothers (Dario, Marco, Elisa) take over the operational direction of the group, while continuing to take care of their respective areas of competence: purchasing, finance and control, marketing and communication department.

2019

1929 90 2019 ANNI

Rossini illuminazione raggiunge l'importante traguardo dei 90 anni, un 90° anniversario che si legge "nove-punto-zero". Una celebrazione del passato con uno sguardo rivolto al futuro, attraverso i progetti legati all'internazionalizzazione e allo sviluppo continuo della tecnologia LED, per un nuovo concetto di luce che pone al contro la persona, i suoi bisogni e il suo benessere.

Rossini illuminazione turns 90 years old. Our 90th anniversary becomes "Nine-Point-Zero": a celebration of our past origins and a look to the future, ready for the next challenges of internationalization and continuous development of LED technology, for a new concept of light that it is especially meant for human being.

Made in Milano, ovvero Made in Italy

La nostra è una storia famigliare che si sviluppa in un Paese che vanta molteplici eccellenze, non ultime quelle produttive. **L'amore per Milano e la presenza sul territorio milanese hanno sempre contraddistinto la nostra storia**. Per questo abbiamo voluto creare il logo Made in Milano, rendendo omaggio a Milano, che sta diventando sempre più un «marchio di qualità»: in continua evoluzione, trendy senza perdere le sue radici, internazionale ma profondamente italiana, positiva e generosa.

Il logo evidenzia i prodotti **interamente concepiti, realizzati ed assemblati in Italia** grazie a partnership produttive privilegiate che trasferiscono all'Azienda tutta la qualità e il know-how tecnico proprio dell'eccellenza italiana.

Made in Milano, or Made in Italy

Ours is a family history that grows in a country that boasts many excellences, not least the productive ones. **Our love for Milano and our presence in the Milanese area have always characterized our history**. This is why we wanted to create the Made in Milano logo, paying tribute to this city, which is increasingly becoming a "quality brand": constantly evolving, trendy without losing its roots, international but profoundly Italian, positive and generous.

The logo highlights the products entirely **conceived, manufactured and assembled in Italy** thanks to privileged productive partnerships that transfer all the quality and technical know-how of Italian excellence to the Company.

Made in Murano, ovvero Made in Veneto

L'eccellenza italiana non dimentica la produzione artigianale del nostro Paese. Da sempre presente all'interno della nostra offerta, oggi vogliamo evidenziare **l'ampiezza della gamma realizzata in Veneto**. Il logo Made in Murano accomuna tutti i prodotti realizzati in collaborazione con la manifattura veneta, siano questi moderni o dal gusto classico.

Tutti vetri artigianali soffiati a mano dai mastri vetrai veneziani, che danno vita a lampade senza tempo e che hanno ancora il sapore artigianale dei prodotti fatti a mano. Oggi come allora, dal 1929.

Made in Murano, or Made in Veneto

Italian excellence does not forget the craft production of our country. Always present within our offer, today we want to highlight **the wide range of products created in Veneto**. The Made in Murano logo connects all the lamps made in collaboration with the Venetian manufacture, whether these are modern or classic.

These are all hand-blown glass made by Venetian glass masters, who give life to timeless lamps that still have the artisan taste of handmade products. Today as then, since 1929.

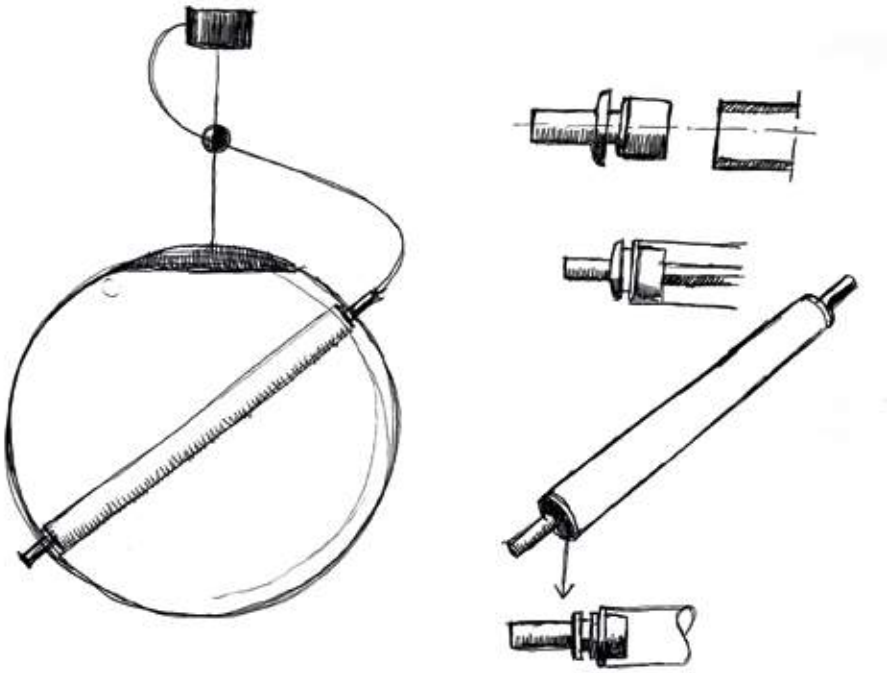

DESIGNER

Chiaramonte & Marin
Terrazza Martini

"La forma tondeggiante di un'oliva e il classico aperitivo milanese: ecco gli ingredienti per nome e forma di questa lampada, la rivisitazione di una sfera senza tempo in chiave moderna e tecnologica".

"The rounded plump olive and the classic Milanese aperitif: these are the ingredients by name and form of this lamp, the revisitation of a timeless sphere in a modern and technological key".

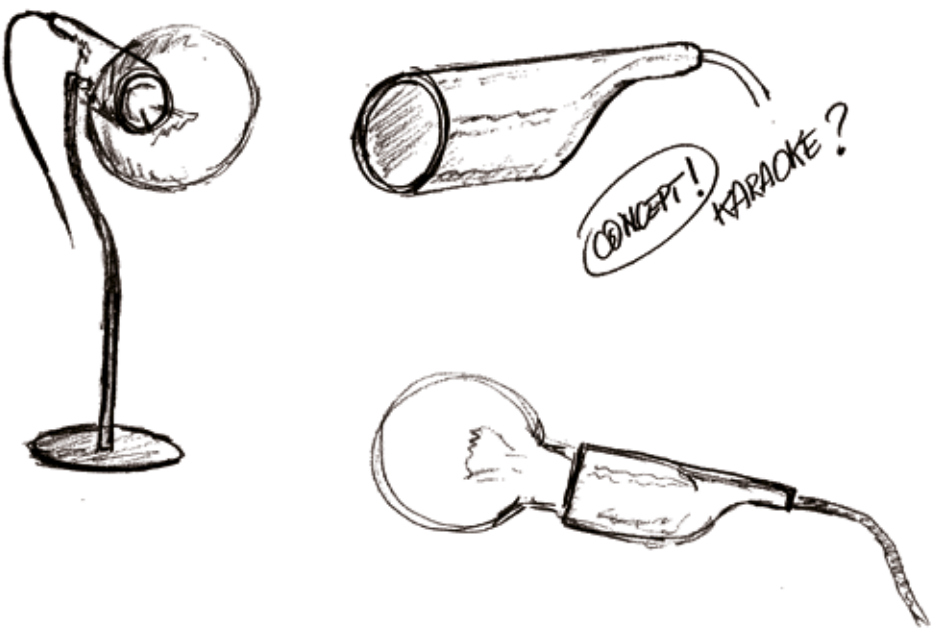

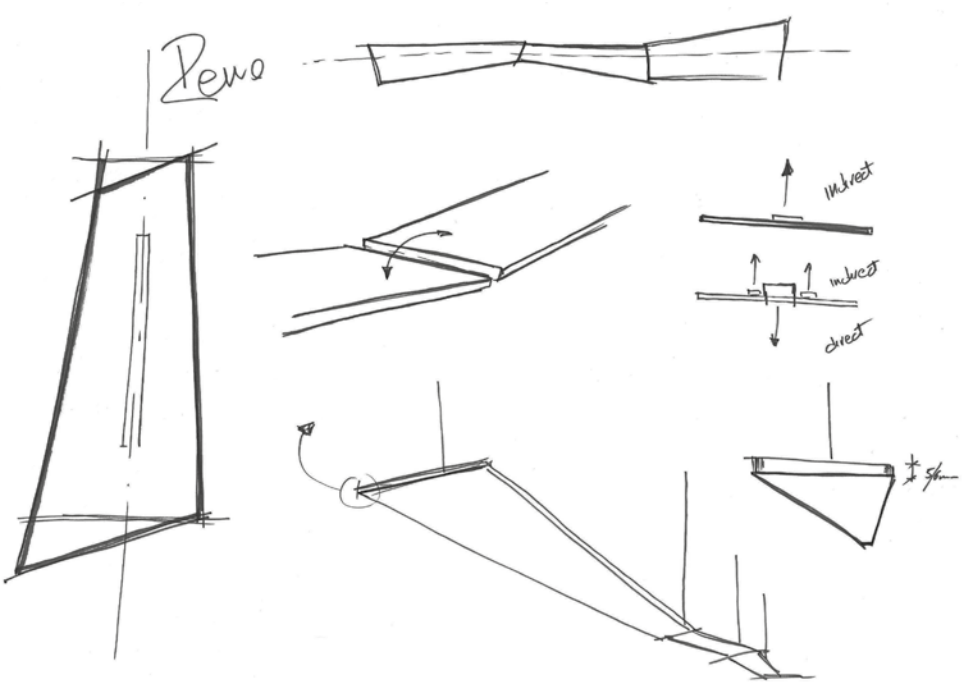

Jurre Groenenboom
Karaoke

Prende spunto dalla forma del microfono ed è un prodotto molto versatile che si presta a personalizzazioni da parte dell'utente, con un effetto materico dell'ottone spazzolato particolarmente ricco ed elegante.

It is inspired by the shape of the microphone and is a very versatile product that lends itself to customization by the user, with a particularly rich and elegant material effect or brushed brass.

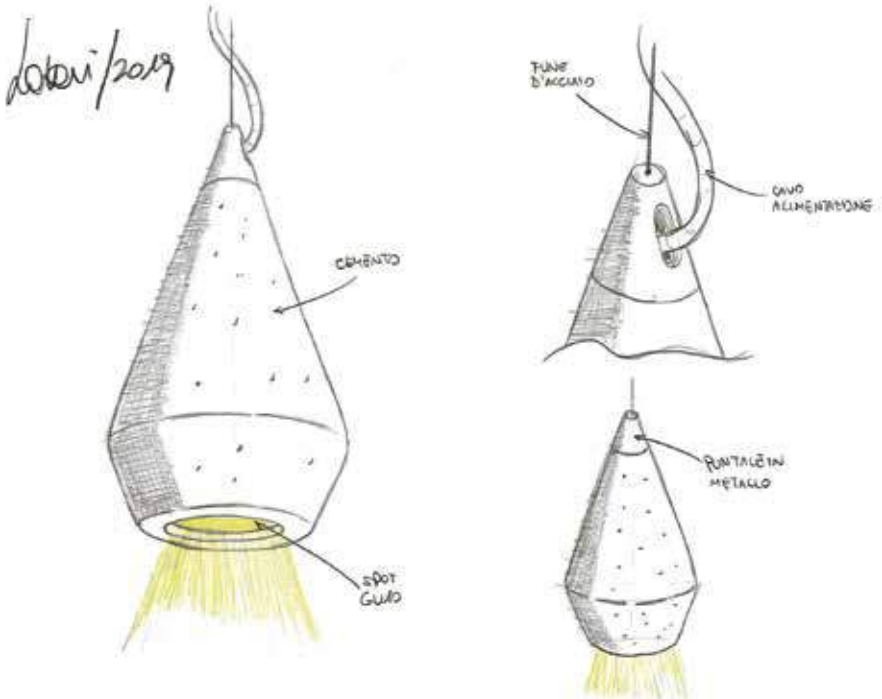

Stefano Valente
Remo

Un designer comasco non poteva che ispirarsi ad un elemento lacustre come quello di un remo, che in questo caso fluttua nell'aria e con la sua forma asimmetrica movimenta lo spazio e l'ambiente.

A designer from Como could not but be inspired by a lake element like that of an oar, which in this case fluctuates in the air and with its asymmetrical shape moves space and the environment.

Andrea Lazzari
Pavè

"Il volume pieno del cemento, la concretezza milanese e l'attenzione per il dettaglio. Questi gli ingredienti che mi hanno ispirato per la sospensione Pavè".

"The full volume of the cement, the Milanese concreteness and the attention to detail. These are the ingredients that inspired me for the Pavè suspension ".

COLLECTION 9.0

custom made

Rossini Illuminazione oggi offre anche la possibilità di una **personalizzazione completa e di alta qualità** dei prodotti decorativi sia in stile classico che moderno, dando ai propri clienti la possibilità di **personalizzare la dimensione**, la **finitura** della lampada scelta, la **struttura del lampadario** o la **temperatura colore del LED**.
Un ufficio tecnico completo, strumentazioni all'avanguardia che permettono il perfezionamento ingegneristico delle lampade e consolidati asset produttivi consentono di realizzare soluzioni integrate che fanno di Rossini Illuminazione il **partner ideale anche per il mondo contract**, perché ogni progetto è unico e va sviluppato su misura.

Cerca il simbolo Custom made all'interno del catalogo e contatta il nostro ufficio commerciale per le tempistiche di fornitura.

Rossini Illuminazione today offers the possibility of a **complete and high quality customization** of its decorative lamps both in classic and modern style, offering its customers the possibility of **customizing the size**, the **finish** of the chosen lamp, the **structure of the chandelier** or the **color temperature of the LED**.
A complete technical office, state-of-the-art equipment that allows the engineering refinement of lamps and consolidated production assets make it possible to create integrated solutions that make Rossini Illuminazione the **ideal partner also for the contract business**, because each project is unique and must be developed tailored up.

Look for the Custom made symbol in the catalogue and contact our sales department for delivery times.

LA LUCE DIVENTA SMART
LIGHT BECOMES SMART

CASAMBI

Grazie alla tecnologia Casambi, **la luce Rossini diventa davvero intelligente e interattiva**: è l'avvento dell'Internet Of Things.

Con questo sistema le possibilità sono innumerevoli: con un'interfaccia semplice e intuitiva è possibile collegare e poi controllare i vari apparecchi illuminanti, gestendo l'accensione o spegnimento, l'intensità luminosa o il colore della luce, configurando anche **diversi scenari luminosi a seconda del momento della giornata, dell'attività o dell'esigenza personale**.

Thanks to Casambi, **Rossini light becomes really smart and interactive**: that's the Internet of Things.

With this lighting system the possibilities are endless: the App, thanks to an extremely user-friendly aspect, can easily connect different lighting devices. The luminaires can communicate with each other: turning on/off, dimming and varying the colour output. **Different scenes can be preset, to create the perfect light on every occasion**.

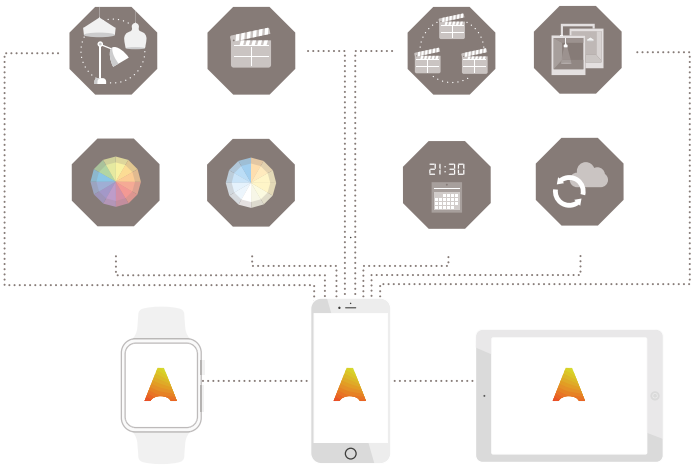

Google Assistant amazon alexa

La luce connessa oggi è alla portata di tutti. **La tecnologia smart integrata** viene proposta su nuovi apparecchi a LED e nuove lampadine LED che funzionano con qualsiasi portalampada standard. **Anche in assenza di predisposizione di un impianto domotico**, è possibile rendere l'ambiente davvero unico e personalizzato.

Grazie all'integrazione completa con le app Google Assistant e Amazon Alexa, **è possibile gestire la luce** attraverso i propri device **con il solo suono della propria voce**.

Connected light today is within everyone's reach. **The smart technology** is available for new LED luminaires and LED lamps that work with any standard lamp holder. **Even in the absence of a home automation system**, it is now possible to have your room truly unique and personalized.

Thanks to the complete integration with the Google Assistant and Amazon Alexa apps, **it is possible to manage the light** through your own devices **with the sound of your own voice**.

App Control

L.283-6-27KWF

iGLOO

" i " per la componente tecnologica che lo caratterizza, la doppia "o" per la forma tondeggiante, iGloo è un apparecchio LED (2700K) a sospensione, da parete, da tavolo e da terra. Dotato di attacco magnetico per il posizionamento del corpo illuminante che consente di orientare di 360° il fascio luminoso netto e definito, il prodotto è caratterizzato da una tripla accensione: luce diretta diffusa (dimmerabile), luce di cortesia e luce di cortesia e diffusa insieme. Disponibile in finitura total white o nera con dettaglio oro lucido.

" i " because of the technological component that marks out the luminaire, the double "o" for the rounded shape, iGloo is a LED luminaire (2700K) available as suspension, wall, table and floor lamp. Equipped with a magnetic joint for tilting by 360° the luminaire with a sharp and defined light beam, the product is equipped with three different lighting switching: diffused direct light (dimmable), courtesy light and courtesy and wide emission together. Available in total white or black finish with polished gold detail.

TERRAZZA MARTINI

Quale migliore drink di un buon Martini, con annegata nella coppa da cocktail una gustosa oliva? Dalla forma tondeggiante dell'oliva nasce il design di questa lampada, ideata dai designers Chiaramonte e Marin. Composta da un diffusore tondo in vetro soffiato a mano in finitura fumè, con un'anima LED al suo interno, realizzata da un cilindro in vetro bianco opaco che diffonde la luce delle schede LED. Proposta in versione da tavolo e a sospensione, con dettagli di chiusura realizzati in ottone satinato.

What better cocktail than a Martini with a tasty olive plunged into the cocktail glass? The plump olive inspired the shape of this luminaire, created by the designers Chiaramonte and Marin. Made of a smoked finish hand-blown glass round diffuser with an internal LED soul in a milky white sandblasted glass cylinder. The internal diffuser encloses the LED boards fixed into an aluminium structure. Available as table and suspension lamp, with closing details in brass satin finish.

CRYSTAL

Leggera e trasparente, Crystal è una lampada LED a sospensione, parete e soffitto dalla forma squadrata, con corpo centrale in alluminio e diffusore in PMMA micro-inciso a laser per un illuminamento omogeneo diretto e indiretto. Disponibile in versione 2700K, in diverse misure e relative potenze e in due finiture colore, bianco e oro satinato.

Light and transparent, Crystal is a LED suspension, wall and ceiling lamp with a square shape, with a central aluminium structure and a micro-laser engraved PMMA diffuser for a direct and indirect homogeneous lighting emission. Available in 2700K, in different sizes and related powers, and in two colour finishes, white and satin gold.

REMO

Apparecchio illuminante a LED (2700K) a sospensione dalla particolare forma asimmetrica che ricorda quella di un remo. Disegnata e ideata da Stefano Valente è composta da un corpo in alluminio spesso solo 4mm, è estremamente versatile e ha uno stile tecnico-decorativo. Disponibile nella versione monoemissione o bimiemissione. Nella versione monoemissione a luce indiretta il corpo è un volume pieno e liscio anche nella parte inferiore. Nelle versioni monoemissione a luce diretta e biemissione l'apparecchio presenta un taglio di soli 20mm di larghezza nella parte inferiore su cui poggia uno schermo diffusore in policarbonato opale a protezione del LED. Disponibile in finitura bianca e ottanio.

LED pendant lamp (2700K) with a particular asymmetric shape reminiscent of an oar. Aluminium body, only 4mm thick. Designed and created by Stefano Valente, it is extremely versatile and has both a technical and a decorative style. Available as indirect, direct or direct/indirect light emission. In the indirect light version, the body is a full and smooth volume; in the direct and direct/indirect versions the structure has a cut, only 20mm wide, in the lower part where an opal polycarbonate diffuser protects the LED. Available in white and teal finishes.

design by Andrea Lazzari

PAVÈ

A Milano il pavè riveste le strade del centro. I ciottoli in porfido vengono accostati e le fughe sigillate con sabbia e cemento. Il cemento, quest'ultimo materiale, diventa protagonista assoluto di questa lampada ideata da Andrea Lazzari, nel volume pieno e materico del diffusore dalla forma essenziale e pulita. Lampada a sospensione con attacco GU10, per un'ottima luce d'accento e concentrata sopra un tavolo da pranzo. In cemento in finitura grigia, con cavo di sospensione in PVC trasparente.

In Milan pavè covers the downtown streets. The cobblestones are in close proximity to each other with the gaps sealed with a sand concrete mixture. Concrete is the key driving factor in the creation of this lamp (design by Andrea Lazzari) and gives full volume material look to the diffuser, with its essential and clean shape. Pendant lamp with GU10 lamp holder, for an excellent accent lighting above a dining table. In grey finish concrete, with transparent PVC suspension cable.

TWIN

Apparecchio illuminante altamente decorativo, Twin si compone di una struttura in metallo su cui poggiano i portalampada. Proposta in due abbinamenti: con finitura tutta ottone satinato o nella versione con struttura verniciata nera e portalampada in ottone satinato. Disponibile nella versione a sospensione, da soffitto, da parete, da tavolo e da terra con attacco E27 con lampadina a vista che consente all'utente di montare una lampadina a sua scelta, personalizzando ulteriormente il prodotto.

Highly decorative luminaire, Twin consists of a metal structure with the lamp holders. Available in two combinations: completely satin brass or with black painted structure and satin brass lamp holders. Available as E27 suspension, ceiling, wall, table and floor lamp, with visible lamp, that allows the user to mount a light bulb of his choice and further personalize the product.

KARAOKE

Prende spunto dalla forma del microfono e si chiama Karaoke. Lampada a sospensione, da parete e da tavolo composta da un portalampada E27 in ottone spazzolato pieno, il cui effetto materico è impreziosito dal contrasto con la struttura in metallo nero opaco. Un prodotto che si presta alla personalizzazione grazie all'utilizzo di lampade decorative LED: in particolare la finitura fumè delle nostre lampadine vintage ne risalta particolarmente i contrasti cromatici. Versione a sospensione proposta anche in caduta multipla con kit decentramento a tre e cinque elementi.

Inspired by the shape of the microphone, it's called Karaoke. Pendant, wall and table lamp with E27 lamp holder in brushed solid brass, whose material effect is enhanced by the contrast with the matt black metal structure. It allows customization thanks to the use of decorative LED lamps, in particular our vintage light bulbs in smoked finish bring out particularly the colour contrasts. Pendant version available in multiple composition, with decentralization kit for three or five elements.

TSUKI

Lampada a sospensione, a soffitto e da tavolo con attacco E27, che consente di montare lampadina a LED. Struttura dalla forma semi-circolare in metallo verniciato nero, su cui si appoggia un piattello color oro lucido agganciato al diffusore, una sfera in vetro satinato bianco opaco, che consente un'ottima diffusione della luce. Cavo in pvc nero, rosone in metallo nero. Prodotto semplice, ma dal gusto decorativo, adatto in ambienti di diversi stili dove ricrea un romantico effetto simile ad una luna.

Pendant, ceiling and table lamp with E27 lamp holder that allows mounting LED lamp. Semi-circular structure in black painted metal, with a shiny gold plate placed on it and connected to the diffuser, a satin white glass sphere, which allows diffused light emission. Black pvc cable, black metal ceiling rose. Simple but with a decorative taste, this lamp is suitable in environments of different styles where it recreates a romantic effect similar to a moon.

EMPTY

Lampada a sospensione dal design minimale, composta da una struttura vuota dalla forma trapezoidale in metallo verniciato, disponibile nelle finiture bianco, giallo e nero. Cavo in PVC in tinta per le versioni nera e bianca, cavo nero sulla versione gialla; rosone in tinta con il corpo lampada. La vera protagonista in questo apparecchio è la lampadina: cablato con attacco E27, con lampadina a vista, il prodotto si personalizza ulteriormente, consentendo all'utente di montare una lampadina a sua scelta. Perfetta per abitazioni moderne e minimal, si presta all'installazione in una cucina, un ambiente living ma anche in una cameretta.

Pendant lamp with a minimal design, composed by an empty structure with a trapezoidal shape in painted metal, available in white, yellow and black colours. PVC cable matching to the black and white versions, black on the yellow version; ceiling rose in the same colour of the body. The real protagonist in this luminaire is the light source, an E27 lamp holder with visible lamp, that allows the user to mount a light bulb of his choice and further personalize the product. Perfect for modern and minimal homes, for installation in the kitchen, the living area but also in the kids bedroom.

ORBIT

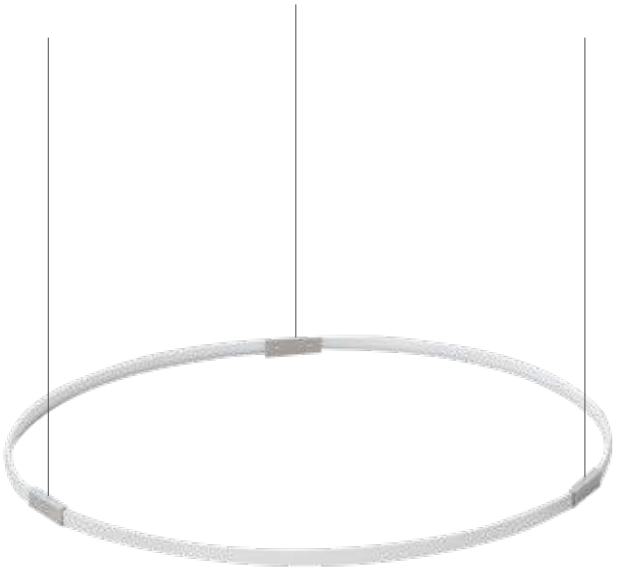

Lampada LED a sospensione (2700K) dalla sottile forma circolare. Struttura in alluminio estruso curvato, diffusore in policarbonato opale. Cavo di alimentazione in PVC trasparente. Proposta in tre diametri e relative potenze, in finitura bianca o nera. Da completare con rosoni, sia per montaggio singolo che per composizioni multiple (a due o tre elementi), che possono essere configurate dall'utente, personalizzando ulteriormente il prodotto con composizioni scenografiche e di grande impatto. Ideale per hall, zone living e grandi spazi.

LED pendant lamp (2700K) with a thin and minimal round shape. Extruded aluminium body with opal polycarbonate diffuser. PVC transparent power cable. Available in three sizes and related powers, in black or white finishes. The body has to be completed with ceiling rose, both in single version and in multiple compositions (with two or three elements) that can be set up by the client and further personalize the product in scenographic and big compositions. Ideal for halls, living areas and big spaces.

MINI AXIOM

Lampada a sospensione con COB LED (3000K) con alimentatore integrato nel rosone. Struttura in pressofusione di alluminio disponibile nei colori bianco, nero e ottone bronzato. Cavo di sospensione in PVC trasparente (versione bianca), in tessuto nero (versione nera e ottone bronzato), rosone in tinta con il corpo lampada. Il riflettore dal diametro molto contenuto (soli 18mm) crea un fascio di luce molto concentrato (40°), per un'illuminazione puntuale. Ideale per qualsiasi ambiente della casa, dalla zona giorno al bagno, al corridoio, ma anche in installazioni in ambito ristorazione e hospitality. Proposto in versione singola e con rosone lineare da tre elementi in tinta con il corpo.

Pendant lamp with COB LED (3000K) with integrated driver in the ceiling rose. Die-cast aluminium body in white, black and bronze copper finishes. Suspension cable in clear PVC (white version), in black fabric (black and bronze copper versions); ceiling rose matching to the lamp body. The reflector with a very small diameter (only 18mm) creates a very concentrated light beam (40°) for accent lighting. Ideal for any room, from the living area to the bathroom and corridor, but also in restaurant and hospitality areas. Available in single version or with linear ceiling rose, in the same colour of the diffuser, for three elements.

SMOOTH

Lampada a sospensione a LED (3000K), biemissione, composta da uno schermo in PMMA trasparente racchiuso in una sottile cornice in alluminio bianco (h.16mm) in cui sono alloggiati i LED. La luce viene convogliata lungo la superficie diffondente grazie ad una micro-incisione a laser effettuata nel PMMA che garantisce un illuminamento omogeneo e privo di abbagliamento (UGR<19). Disponibile in versione On-Off, DALI e con interfaccia Casambi.

LED pendant lamp (3000K), with direct-indirect light, composed by a transparent PMMA screen enclosed in a thin white aluminum frame (h.16mm) in which the LEDs are housed. The light is conveyed along the diffusing surface thanks to a laser micro-incision made in the PMMA which guarantees a homogeneous and glare-free illumination (UGR <19). Available in On-Off, DALI and with Casambi interface.

SPINNAKER

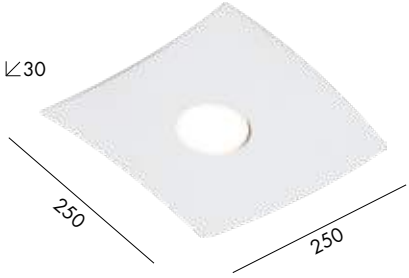

Lampada a sospensione, a soffitto e a parete di forma squadrata con attacco GX53 che consente di montare lampadina LED. Proposta nella versione con uno, quattro o sei portalampada, la luce esce dai fori circolari nella struttura (sospensione anche in versione biemissione). Corpo in metallo (spessore 2mm) verniciato a polveri in finitura bianca e sabbia. Prodotto molto versatile e in virtù della sua sottigliezza è ideale per l'installazione nelle abitazioni moderne, anche in applicazioni multiple creando composizioni personalizzate nei colori e nella disposizione degli elementi (tramite intervento di personale specializzato).

Pendant, ceiling and wall lamp with direct light and a square shape, with GX53 lamp holder that allows mounting LED lamp. Available in the version with one or four lamp holders, the light comes out of the circular holes in the structure. Powder-coated metal body (2mm thick) in white and sand colours. Very versatile product: due to its thinness is ideal for installation in modern homes and in multiple compositions, customized in the colors and in the arrangement of the elements (through the help of specialized personnel).

PUZZLE

Come gli elementi di un puzzle, anche in questa lampada a soffitto e parete a luce diretta dalla particolare e divertente forma, più apparecchi si possono accostare tra loro, creando composizioni personalizzate nei colori e nella disposizione degli elementi (tramite intervento di personale specializzato). Cablata con attacco GX53 che consente di montare lampadine LED. E' composta da una struttura in metallo verniciato a polveri disponibile in quattro finiture: bianco, nero, rosso e azzurro. Il prodotto ideale per illuminare con allegria la cameretta e gli spazi dedicati a bambini e adolescenti.

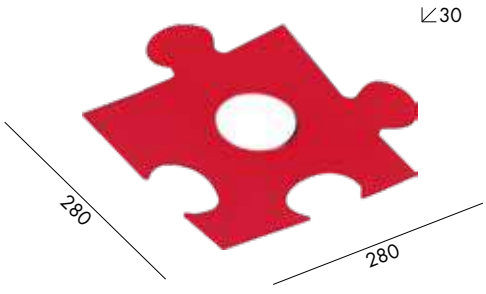

Like the single elements of a puzzle, even in this ceiling and wall lamp with direct light and a particular and fun shape, several lamps can be placed side by side, creating customised compositions in the colours and arrangement of the elements (through the help of specialized personnel). GX53 lamp holder that allows mounting LED lamp. It consists of a powder-coated metal structure available in four colours: white, black, red and blue. The ideal lamp to light up the bedroom and the spaces dedicated to children and teenagers.

KAHLO

Lampada da parete e da soffitto con sorgente LED (2700K). Struttura tondeggiante in pressofusione di alluminio (spessore 1mm) verniciata a polveri. Disponibile in quattro misure (versione mini, small, medium e large) che si possono montare singolarmente o accostare in composizioni, da due, tre, quattro o cinque elementi (vedi schema di montaggio pag.176-177). Proposta in tre finiture (bianca, nera e oro satinato) che si prestano per composizioni uniche e personalizzate. La tecnica di fissaggio a calamita dei singoli elementi facilita il montaggio e la pulizia del prodotto.

LED wall and ceiling lamp (2700K). Die-cast aluminium structure powder coated with a rounded shape (1 mm thick). Available in four sizes (mini, small, medium and large versions) that can be single-mounted or composed by two, three, four or five elements combined together (see composition example pg.176-177). Available in three finishes (white, black or satin gold) that make unique and custom compositions possible. Luminaires are magnet mounted to the structure, allowing easy installation and maintenance.

DAISHO

Lampada a parete a luce indiretta con sorgente LED (2700K), dalla forma lineare e semplice. Realizzata con un corpo cilindrico in alluminio, orientabile (max 350°), fissato ad una struttura circolare che si installa a parete, in cui è alloggiato l'alimentatore. Disponibile nelle finiture bianco, nero, bronzo e nickel satinato, si presta a composizioni multiple con particolari effetti di luce sulla superficie di installazione. Adatto ad installazioni sopra specchi, quadri, disposto in verticale o orizzontale.

Wall lamp with LED source (2700K) and indirect light emission, with a linear and simple shape. Composed by a cylindrical aluminum body, adjustable (max 350°), fixed to a circular structure that is installed on the wall, with driver inside. Available in white, black, bronze and satin nickel colours, ideal for multiple compositions with particular light effects on the installation surface. Suitable for installations above mirrors, paintings, arranged vertically or horizontally.

ENSO

Lampada a parete con sorgente LED integrata (3000K) dalla linea minimal e dalle prestazioni ottimali. La luce diretta è emessa dalla superficie interna di un anello orientabile (max 350°) applicato su una struttura in pressofusione di alluminio, entrambi verniciate a polveri nei colori bianco e nero. Enso, una volta accesa, crea due semicerchi di luce contrapposti; in fase di installazione, con l'utilizzo di più apparecchi, si possono creare infiniti giochi di luce. Prodotto dalle dimensioni contenute ideale per l'installazione in luoghi di passaggio, nelle abitazioni moderne.

Wall lamp with integrated LED source (3000K) with a minimal design and optimal light performance. The direct emission comes from the inner surface of an adjustable ring (max 350°) fixed on a die-cast aluminum structure, both parts powder-coated in black or white finish. Once turned on, Enso creates two opposite semicircles of light; during the installation, using more luminaires, it is possible to create infinite light effects. Product with small dimensions, ideal to be installed in transit areas, in stylish homes.

GIOIA

Gioia unisce ricerca estetica, tecnologica e funzionale a un elegante gioco di trasparenze e nuances di colore, per dare un tocco di personalità all'ambiente. Proposta nella versione singola o in cadute multiple (sia con rosone che con kit decentramento) da comporre con cavo in PVC trasparente o in tessuto (disponibile nei colori rosso, nero o verde militare). È caratterizzata da una raffinata forma ovale leggermente schiacciata in vetro pyrex, sabbiato all'interno. I diffusori sono disponibili in cristallo trasparente, cromo sfumato, bronzo lucido e oro lucido (ottenuto grazie alla lavorazione della metallizzazione).

Gioia combines aesthetic, technical and functional innovation with a game of transparencies and nuances of colours, to give a touch of personality to the atmosphere. It is presented in the single version or in multiple composition (both with ceiling rose and with decentralization kit) to combine with power cable in trasparent PVC or in fabric (available in red, black or military green finishes). It is characterized by a refined oval shape slightly crushed, made of pyrex glass, sandblasted inside. The glass diffusers are available in clear crystal, shaded chrome, polished bronze and polished gold (metallization process).

RIFLESSI

Lampada da terra a luce indiretta con sorgente LED integrata (3000K) realizzata in metacrilato; dimmerabile con varialuce. La luce proviene dalla superficie diffondente che copre l'intera altezza della lampada, ideale se rivolta contro una superficie chiara per avere un effetto di luce riflessa. La parte frontale della lampada è in finitura specchiata, che rende l'apparecchio elegante e originale. Apparecchio ideale per la camera da letto, per la zona giorno e il living.

Floor lamp with indirect light emission with integrated LED source (3000K), dimmable with slide control. The light comes from the diffuser covering the entire height of the lamp, ideally facing against a clear surface to have a reflected light effect. The front part is in mirrored finish, making the lamp elegant and original. Ideal for the bedroom and the living area.

BESANA

Besana fonde l'artigianalità con un gusto più tecnico: il vetro sfumato realizzato a mano è impreziosito da una calotta metallica, dal tocco contemporaneo. Besana è disponibile nella versione da tavolo e a sospensione in due misure con attacco E27 che consente di montare lampadina LED. La versione grande esalta ulteriormente la bellezza e l'importanza della sfera di cristallo pieno e il gioco di trasparenze e opacità del vetro soffiato a mano nella lavorazione artigianale della sfumatura. Un prodotto elegante e raffinato anche da spento.

Besana blends craftsmanship and a more technical taste: the hand-blown glass is enhanced by a contemporary metal cap. Besana is available in the table and in the pendant version in two sizes with E27 lamp holder that allows mounting LED lamp. The bigger version enhances the beauty and the importance of the full crystal sphere and the game of transparency and opacity of the blown glass, obtained with the artisan technique of gradation. An elegant and sophisticated product even when turned off.

TASCA

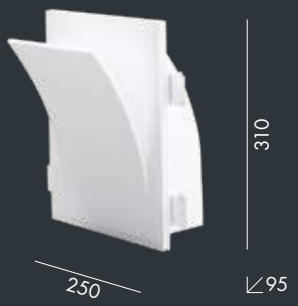

Incasso da parete in gesso a scomparsa totale (frameless) a luce indiretta, installabile su superfici in cartongesso. Struttura che si adatta e si nasconde nella superficie di installazione, con possibilità di pitturare il corpo in finitura colore a propria scelta, adattandolo alla parete su cui viene montata. Proposta in due versioni: con un taglio di luce centrale (attacco R7s) o con una struttura in aggetto verso l'esterno (attacco E14). Permette effetti luminosi particolari, in cui la luce sembra provenire direttamente dal volume pieno della parete.

Frameless plaster recessed lamp, with indirect light emission, suitable for wall plasterboard installation. Structure that hides in the installation surface; for its plaster body it is possible to paint it as desired, adapting it to the colour of the installation surface. Available in two versions: with central light cut (R7s lamp holder) and with an outwards structure (E14 lamp holder). Light appears to come directly from the full wall plane, allowing particular light effects.

ALLEN

Lampada a soffitto e da parete orientabile di 360°; struttura in ottone cromato e diffusore in cristallo temperato con satinatura centrale che nasconde la fonte luminosa. Alta efficienza luminosa e luce diretta: il prodotto si presta all'installazione in ambienti particolari (con soffitto con travi in legno o con volte in mattoni).

360° adjustable wall and ceiling lamp; structure in chrome brass and diffuser in tempered crystal with central satin finish that hides the light source. Thanks to its high efficient direct light, the luminaire is suitable for installation in particular envirovments, such as those with wooden beam and brick vault ceilings.

LUKE

Lampada a sospensione, da soffitto e da parete in ceramica. Finitura bianca o con decorazioni blu o marroni realizzate a mano. Sbraccio dell'applique in ferro battuto. L'articolo va ordinato componendo la struttura e il diffusore (nella versione sospesa diffusore Ø200 e 400mm nella versione parete/plafone diffusore Ø200mm). Prodotto da personalizzare e implementare con accessori quali cavo a treccia, scatola di derivazione, interruttore/deviatore e isolatore in ceramica per creare un impianto elettrico completo o deviare il punto luce. Attacco E27 con lampadina a vista che consente all'utente di montare una lampadina a sua scelta, personalizzando ulteriormente il prodotto.

Pendant, ceiling and wall lamp in ceramic. Available in white finish or with blue or brown handmade decors. Applique structure in wrought iron. The luminaire has to be composed of structure and diffuser (Ø200 or 400mm for the suspended version, Ø200mm for the ceiling/wall version). It can be customised with accessories like braided cable, junction box, switch and insulator in ceramic to create a complete electric system or to deviate the light source. E27 lamp holder with visible lamp, that allows the user to mount a light bulb of his choice and further personalize the product.

SMART WIFI SWITCH

Interruttore intelligente compatibile con Alexa e Google Home per apparecchiature elettriche wifi da 2.4 GHz, che fornisce agli utenti un controllo intelligente della casa. Carico Max 500W.

Smart switch compatible with Alexa and Google Home for 2.4 GHz wifi electrical equipment, which provides users with intelligent home control. Max load 500W.

SMART WIFI SHUKO SWITCH

Presa intelligente wireless compatibile con Alexa e Google Home per qualsiasi dispositivo elettrico standard. Comanda fino a 2200W con controllo vocale e funziona con qualsiasi router wifi 2.4 GHz

Smart wireless socket compatible with Alexa and Google Home for any standard electrical device. It controls up to 2200W with voice control and works with any 2.4 GHz wifi router.

CAMPANA IN VETRO BIANCO LUCIDO CON BORDO BELL GLASS IN POLISHED WHITE GLASS WITH EDGE

codice code	dimensioni dimension	attacco connection
V.915-100	Ø 115 mm - H. 100 mm	I.100
V.915-125	Ø 140 mm - H. 120 mm	I.120
V.915-180	Ø 200 mm - H. 140 mm	I.175
V.915-200	Ø 225 mm - H. 160 mm	I.195
V.915-230	Ø 280 mm - H. 205 mm	I.225
V.915-300	Ø 350 mm - H. 270 mm	I.300

VARIATORI DIMMER

DM.502-N

Varialuce da terra max 300W
Ground dimmer max 300W

DM.509

Varialuce da terra max 300W
Ground dimmer max 300W

W.9502

Varialuce da piede per moduli led a tensione di rete

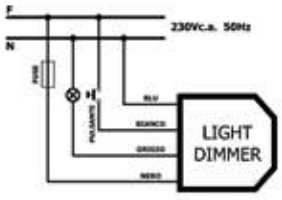

Foot dimmer for mains voltage LEDs modules

colore color: N TR

L. 40 - L. 15 - H. 45

DM.552

Variatore universale che permette di regolare tutte le lampade ad incandescenza, alogene, LED purché del tipo dimmerabile. Dispositivo azionabile tramite uno o più pulsanti NA, con collegamento indifferente su fase o su neutro.

Universal dimmers is possible to adjust all the incandescent lamps, halogen lamps, LED provided the type dimmable. The device can be operated by one or more pushbuttons NA, connected either on stage or on the neutral.

CARICATORE USB USB CHARGER

MT.8USB

Caricatore USB multiplo a 8 porte con luce LED, 40W - 18A, input:100-240V

8-port multiple USB charger with LED light, 40W - 18A, input: 100-240V

GRADO DI PROTEZIONE - IP
INTERNATIONAL PROTECTION - IP

La "resistenza" offerta dall'apparecchio alla penetrazione di solidi e liquidi viene indicata dal prefisso IP (*International Protection*) seguita da due cifre, la prima identifica il grado di protezione contro l'ingresso dei corpi solidi e la seconda dei liquidi.

The "resistance" offered by the product to the solids and liquids penetration is indicated by the IP prefix (*International Protection*) followed by two digits, the first identifiesthe degree of protection against ingress of solid objects and the second liquid.

PRIMA CIFRA / FIRST NUMBER

0 non protetto
unprotected

1 protetto contro la penetrazione di corpi solidi di dimensioni superiori a 50mm
protected against the intrusion of solid objects larger than 50mm

2 protetto contro la penetrazione di corpi solidi di dimensioni superiori a 12mm
protected against the intrusion of solid objects larger than 12mm

3 protetto contro la penetrazione di corpi solidi di dimensioni superiori a 2,5mm
protected against the intrusion of solid objects larger than 2,5mm

4 protetto contro la penetrazione di corpi solidi di dimensioni superiori a 1mm
protected against the intrusion of solid objects larger than 1mm

5 protetto contro la penetrazione della polvere
protected against dust penetration

6 protetto completamente contro lapenetrazione della polvere
completely protected against dust penetration

SECONDA CIFRA / SECOND NUMBER

0 non protetto
unprotected

1 protetto contro le cadute verticali di gocce d'acqua
protected against water vertically falling drops of water

2 protetto contro la caduta dell'acqua con inclinazione massima di 15°
protected against falling water with 15° maximum inclination

3 protetto contro la pioggia
protected against rain

ISPIRAZIONI CROMATICHE

Suggestive ambientazioni e accostamenti cromatici danno vita a set creativi in cui le lampade trovano nuove e sempre diverse interpretazioni.
by Elisa Rossini – Marketing & Communication Director

Vi sveliamo ora l'accurato lavoro svolto con la stylist Francesca Vizzari di Pistacchio & Caffè. Per un catalogo di rottura e ambasciatore del rinnovamento aziendale, era necessario un lavoro speciale e unico. Le parole chiave sono: ambientazione, emozione e colore. La scelta è quindi ricaduta su una interior designer che ha fatto del progetto colore la sua specializzazione e la sua professione.
Un progetto frutto di ascolto e di condivisione tra la stylist e l'azienda, dove l'interpretazione delle lampade si sposa con l'ideazione di un particolare ambiente. Incontro dopo incontro, le idee si sono concretizzate in dettagliati set e ognuno porta con sé una visione, un modo di interpretare le lampade, un mood e uno stile che ora vi vogliamo raccontare.

CHROMATIC INSPIRATIONS

Suggestive settings and color combinations give life to creative sets in which the lamps find new and always different interpretations.
by Elisa Rossini – Marketing & Communication Director

We here want to tell you about the accurate job of the stylist Francesca Vizzari from Pistacchio & Caffè. As this is a new catalogue, symbol of a new era in the company and a radical change from the past, it was necessary a unique and special work. The keywords of the job were setting, emotion and colour. So we chose an interior designer that has been pursuing and working with colours as a professional.
The project was made of listening and sharing between the company and the stylist,where the ideas behind the lamps meet the creation of a particular setting. Meeting after meeting, ideas took the form of accurate locations, all with a specific vision, interpretation of the lamps, mood and style that we are now about to tell you.

EASY NORDIC

Protagonisti: Fringe, Jay

Fuori imperversano il freddo e l'inverno, dentro un mood total white, che ha il sapore di una cioccolata fumante aromatizzata alla cannella, assaporata su un caldo tappeto in pelle di pecora. A far da sfondo: tronchi bianchi di betulla. Ad illuminare l'ambiente: prodotti dallo stile minimal e dalle forme semplici, ma che riscaldano il salotto con la loro luce.

Outside winter and chill prevail. Inside a total white mood, scenting of a smoking hot chocolate with cinnamon, maybe tasted over a soft sheep carpet. Birch trunks on the back. Products with minimal and simple lines warm up the living room with their light.

TECNO OFFICE

Protagonista: iGloo

Una scanzonata sala d'attesa. Un angolo di ufficio un po' particolare, forse domestico, dove i "to do" appesi alla parete non sono minacciosi e anzi invogliano a godersi la vita. Dominano le mezze tinte e i colori soft, illuminati da un fascio netto e preciso di una luce mobile e super tecnologica.

A light-hearted waiting room. A bit peculiar office corner, perhaps domestic, where the "to dos" hanging on the wall are not threatening and rather entice one to enjoy life. Half-tones and soft colors dominate, illuminated by a clear and precise beam of a mobile and super-technological light.

RUSTIC CHIC

Protagonisti: Pic-nic, Take away

È primavera, il momento perfetto per un pic-nic al parco o, perché no, ricreato nel proprio angolo di casa. Cuscini dalle tinte soffici e morbide, una coperta avvolgente e dei cupcake zuccherosi al punto giusto. Il mood perfetto per la luce "prêt-à-porter" outdoor, a rischiarare le chiacchiere rilassate mollemente adagiati per terra.

It's springtime, the perfect moment for a pic-nic at the park or for setting it at your own home, why not? Soft and silky cushions, an enveloping blanket and cupcakes sugary just enough. This is the ideal mood for our outdoor "prêt-à-porter" light, perfect to light up chatters comfortably eased lying down on the floor.

TECNO LIGHT

Protagonisti: Terrazza Martini, Crystal, Chopin

Il banco bar pullula di oggetti ed accessori: l'arte di un bartender ha bisogno di concentrazione e di dettagli. Quali migliori prodotti a LED possono illuminare il suo tavolo di lavoro, ovvero il suo palcoscenico, fornendo la luce adatta a stimolare la creatività? Il gioco con Terrazza Martini è presto fatto…

The bar counter is full of objects and tools. The bartender performance needs details and concentration. What better LED products can light up his worktable, his stage, giving the perfect light that stimulates his creativity? Terrazza Martini fits perfectly to the task…

URBAN NOW

Protagonisti: Empty, Daisho

Una camera di un adolescente con le sue pareti dalle tinte forti e i contrasti accesi. Street style (art decoration by ZA – Alan Zeni), libri presenti, ma un po' trascurati e tanti sogni ancora da scrivere. Prodotti con una spruzzata di tecnologia, dalle forme non invadenti che lasciano protagonista assoluto il colore.

A teenager bedroom with strong opposing colours on the walls. Street style (art decoration by ZA – Alan Zeni), books scattered all over and partially ignored, a lot of dreams still to be told. Lamps with a pinch of technology, with minimal lines that leave the colour as the unique protagonist.

DESIGN I LOVE YOU

Protagonisti: Riflessi, Tsuki

È uno zoo di vetro quello che vediamo o un "deserto-non deserto" ricreato nel salotto di casa? I cactus sembrano non far male con le loro spine e i riflessi della lampada da terra creano giochi di doppi e di illusioni. Dal canto suo la sospensione, che ricorda la forma di una luna, ricrea in soggiorno la notte magica e ovattata del deserto.

Is it a glass zoo or a " desert non-desert" what we see in the living room? The cactus do not seem to hurt with their thorns and the ribbons of light of the floor lamp create optical illusions and double effects. For its part the suspension, which recalls the shape of a moon, reproduces in the living room the magical and muffled night of the desert.

OUTDOOR FEELING

Protagonisti: Pic-nic, Siesta

Una terrazza soleggiata nel mese di agosto, una sdraio a bordo piscina, protetti dalla copertura di un cappello in paglia e rinfrescati da una limonata ghiacciata. La luce da esterno che invoglia ad una "siesta" si sposta dal tavolino a terra. È ancora spenta, ma al calar del sole illuminerà delicatamente la lettura di un libro o l'orario dell'aperitivo.

A sunny terrace in august, a deck chair by the pool, protected by a straw hat and cooled by iced lemonade. The outdoor light that invites to a "siesta" can be moved from the table to the floor. It is still off, but at sunset will gently illuminate the reading of a book or the cocktail hour.

INDUSTRIAL MOOD

Protagonisti: Fringe, Karaoke, Aisha

Siamo in un'officina meccanica. Strumenti ovunque, sia in fila ordinata sugli scaffali, che sparsi sul tavolo di lavoro. Non c'è tempo per pensare al design o a ciò che è pulito e perfetto: il padrone di casa è un biker senza tanti fronzoli. Le tinte scure e dal carattere forte vengono illuminate da fasci netti e precisi dei prodotti a LED, rischiarate dalle tonalità dei materiali in bianco e in ottone.

We are in a mechanic's workshop. Some tools are lined up tidily on the shelves, others scattered around the work table. No time and worries about design and what is neat and perfect: the shop owner is a gruff biker. Neat light beams from the LED luminaires light up the strong and dark colours of the place, softened by the clear materials of the lamps in white and brass.

RossiniGroup

1929 2019 90 ANNI

RossiniGroup è un'articolata realtà nel mondo dell'illuminazione. Fondata nel 1929 a Milano, quando la famiglia Rossini avvia la commercializzazione di piccoli oggetti e lampadari artistici in vetro di Murano, oggi è un Gruppo presente sul mercato nazionale ed internazionale con un'offerta trasversale e completa dedicata sia al privato che al progettista, all'installatore e al contractor.

La storica **Rossini illuminazione**, che commercializza una gamma decorativa e tecnica davvero completa per interni, esterni, casa e ufficio, con quasi 5000 articoli trattati suddivisa sui due volumi del catalogo DECO e TECH.

Plexiform, marchio acquisito nel 2012, è un'azienda italiana con una storia di 50 anni. Oggi è il centro produttivo di Rossini Illuminazione e la sua offerta si compone di sistemi estremamente flessibili, con alte performance luminose e un occhio sempre attento al design.

Overlite, il più esclusivo lighting showroom di Milano, è uno spazio vastissimo con i migliori brand dell'illuminazione di design, dove progettare le migliori soluzioni illuminotecniche per i più svariati spazi abitativi.

RossiniGroup is an acknowledged reality in the lighting world. Established in Milan in 1929, when the Rossini family began the marketing of small objects and artistic chandeliers in Murano glass, the group today is present in the national and international market and aims at the private client as well as the architect, the contractor or the installer.

The historical **Rossini illuminazione** markets both a decorative and an extremely complete technical range for indoor and outdoor, home and office, with nearly 5000 products on the two catalogues DECO and TECH.

Plexiform is an Italian company that was acquired by RossiniGroup in 2012. Today it is the productive centre of Rossini illuminazione and it has been manufacturing extremely flexible lighting systems for 50 years, with high light performance and a keen eye for design.

Overlite, the most exclusive lighting showroom in Milano, with the top brands in the designer lighting sector. A huge space where you can get lighting projects for the most various areas and spaces.
